Creative Writing for Women

A 10 week program for women who would like to write.

Come draw on your senses,
your experience, your memories
and your life.

Come rekindle lost creativity.
Come free up your voice.

Every woman has a story to tell.
Every woman has an idea, a thought, an experi-
ence that she can share.

*This creative writing course is about
creating that space.*

You will be supported and encouraged to make
up stories and write them down.

You will be sharing your thoughts with other
women in a friendly environment.

Treat yourself You deserve it !
