

**re-pute.it**

a laptop  
with ethics  
to be  
proud of

- Re-purposed laptops reduce e-waste
- Free, open-source software puts *you* in control
- Zero-carbon upcycling & delivery in Durham
- Social enterprise using no exploitative labour

A high-quality laptop like this one for **only £100**

Fully configured to run Linux Mint, one of the world's most popular personal computer operating systems

General-purpose model suitable for most users' needs – special orders of other models available

Each purchase comes with a 6 month membership of a peer-led support & learning club at a community centre in Durham to get you started in the liberating, empowering world of free software
