

# CALL TO ACTION!

## INTERNATIONAL DAY AGAINST AUSTERITY

# OCTOBER 15, 2011

On **October 15th** people around the world will take to the streets to express outrage at how our rights are being undermined by the alliance between politicians and big corporations and their commitment to make workers and poor people pay for THEIR crisis.

From Spain Democracia real Ya (Real Democracy Now) issued a global call. And now people in France, Portugal, Australia, Ireland, and many more countries have responded and are organizing local calls to action. It is time to raise our voice. Our future is at stake, and nothing can hold back the power of millions of people when they unite for a common goal.

October 2011 is the 10th anniversary of the invasion of Afghanistan and the beginning of the 2012 federal austerity budget. While we are told that we need "shared sacrifice" it is clear that the burden of the economic crisis is intentionally being passed only to working and poor people. It is also clear that the ruling elite's priority is to continue war spending and lowering our living standards through austerity measures.

It's time we demand a priority change in our society: Tax the rich and end the wars! We will not pay for THEIR crisis! That's why we invite you to **join this fight** and spread the message that together we have the ability to change this intolerable situation. Let's take to the streets on October 15th. It's time for them to listen to us. United we will make our voices heard!

### SAVE THE DATE!

**WHAT** - Planning meeting for 10/15

**WHEN** - Sat., September 10<sup>th</sup> 12:00pm

**WHERE** - Urban Grind 3797 Park Blvd.
