SAVE RYTON!

The Peugeot car factory at Ryton Coventry will close next year unless working class people in all industries come out in solidarity with the Ryton workers and their families.

Ryton is a profitable and efficient plant which greatly aided Peugeot in making a profit of over one billion euros last year.

We call for boycotts of Peugeot, Solidarity pickets at Peugeot dealers, direct action by workers against Peugeot and mass strikes to defend the Ryton workers. If they defeat the Ryton workers then it will be your turn.

An Injury To One Is An Injury To All!
