ACADEMY FOR COMMUNITY LEADERSHIP

The Academy for Community Leadership is a successful project within Northern College. The project supports the development of sustainable community regeneration in South Yorkshire by providing training opportunities that enable local people to gain community regeneration skills. The work of the Academy, established in 2003, has already had an impact on communities, groups and individuals. We are now working on longer-term strategies to ensure that the organisation's future is secured.

The Academy is seeking to build on its success by recruiting to the post of:

Working to the Academy Board, the Project Director will be responsible for the strategic management and development of the Academy, and for driving it forward during the next exciting and dynamic phase of its life. The Academy is currently negotiating with ESF and the RDA for continuation funding beyond December 2005.

Applicants should have experience of strategic management, forming robust and successful partnerships, managing large and diverse budgets and income generation.
